100% recycled polyester, or 83% recycled polyester + 17% elastane, 63% recycled polyester + 25% polyester + 12% elastane

MaxDry ECO is the sustainable evolution of arena's exclusive technology for moisture management, that facilitates uni-directional sweat wicking: the inner side instantly absorbs moisture and pushes it to the external surface for fast evaporation, to deliver comfort and a dry feeling. Made with recycled polyester obtained from PET bottles, MaxDry Eco is also a guarantee of reduced energy consumption, CO2 emission and water usage during its production process.

The ultimate Dry Experience

Unique channel structure created for superior moisture management. The signature inner linings instantly absorb moisture and push through the channels to the surface layer for fast evaporation. Unique vertical moisture transport channels facilitate uni-directional sweat wicking.

## MADE IN GREEN

**MADE IN GREEN** is a traceable product certification for all kinds of textiles products that have been manufactured in environmentally friendly facilities under safe and socially responsible working conditions.

The **MADE IN GREEN** certification also reassures consumers that the textile product is made of materials that have been tested for harmful substances.
